All Shippers shall follow SOLAS (Safety Of Life At Sea) Regulations, commencing July 1, 2016, and/or any local laws or regulations to provide the Carrier with the Verified Gross Mass ("VGM") for all export containers tendered to the Carrier for shipment before the containers are loaded aboard Carrier's vessel. Since there are different regulations at individual ports regarding the actual time when the VGM has to be provided, Merchants are directed to the websites of Carrier's local agents for the time when the VGM has to be submitted. If the certified VGM is not provided to the Carrier before loading, the affected containers will not be loaded on Carrier's vessel.

For Further information regarding SOLAS VGM requirement, please see:

1. SOLAS website at "<http://www.imo.org>", as well as
2. The World Shipping Counsel website at "<http://www.worldshipping.org>", which contains a summary explanation of the VGM.

The Merchant warrants to the Carrier that the particulars and description of cargo furnished by or on behalf of Merchant are adequate and correct, especially the cargoes named (Lithium Battery / Power Bank / Power Pack and/or similar description of Goods) which might jeopardize common safety of navigation and stowage. The Merchant shall indemnify the Carrier against any and all loss, damage, expenses, fees and penalties arising or resulting from inaccuracies or inadequacy of such particulars provided by the Merchant.
